for a job.

Hard Skills:

Examples:

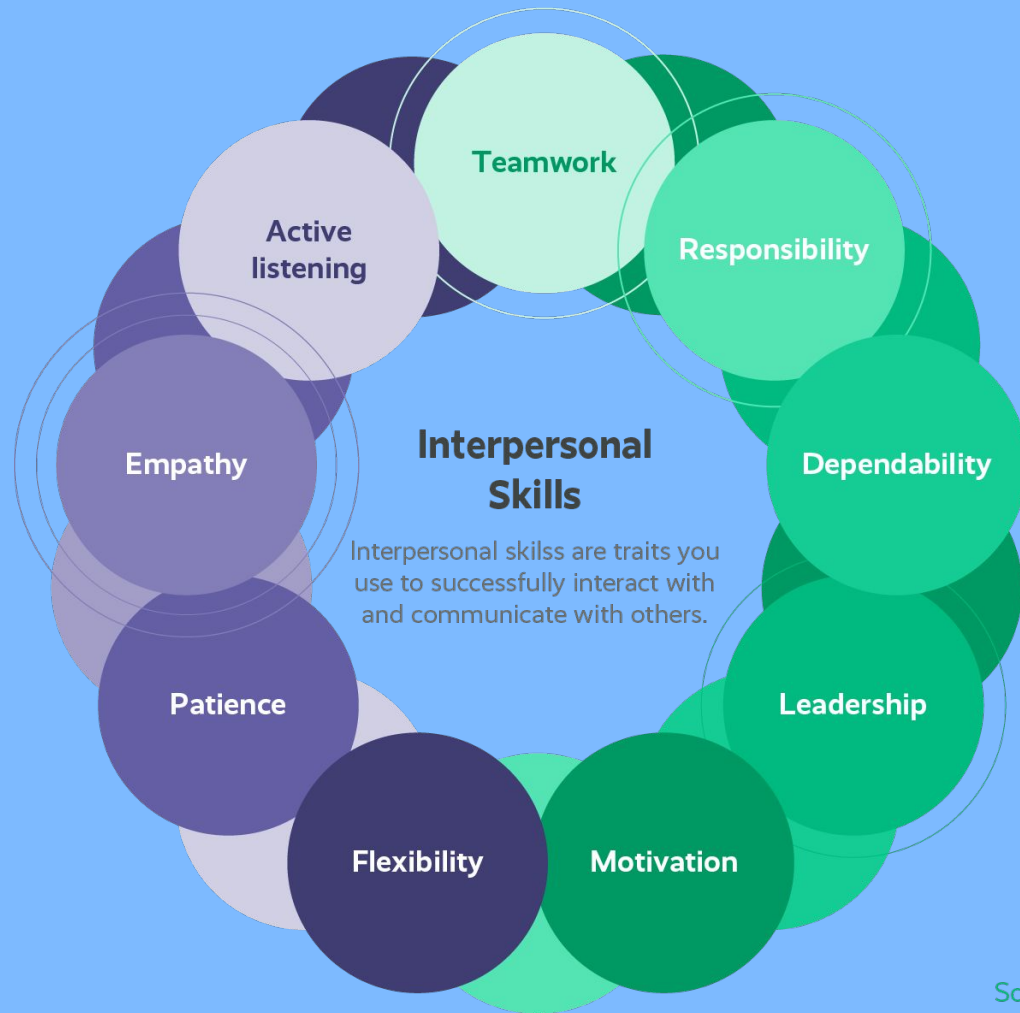

- Data analysis
- Cloud security
- Coding
- Network security
- Vulnerability assessment
- Digital forensics
- Malware forensics
- Risk management
- Operating Systems
- Incident Response
- Wireless
- Pen Testing
- Malware Prevention
- Security Auditing

Soft Skills

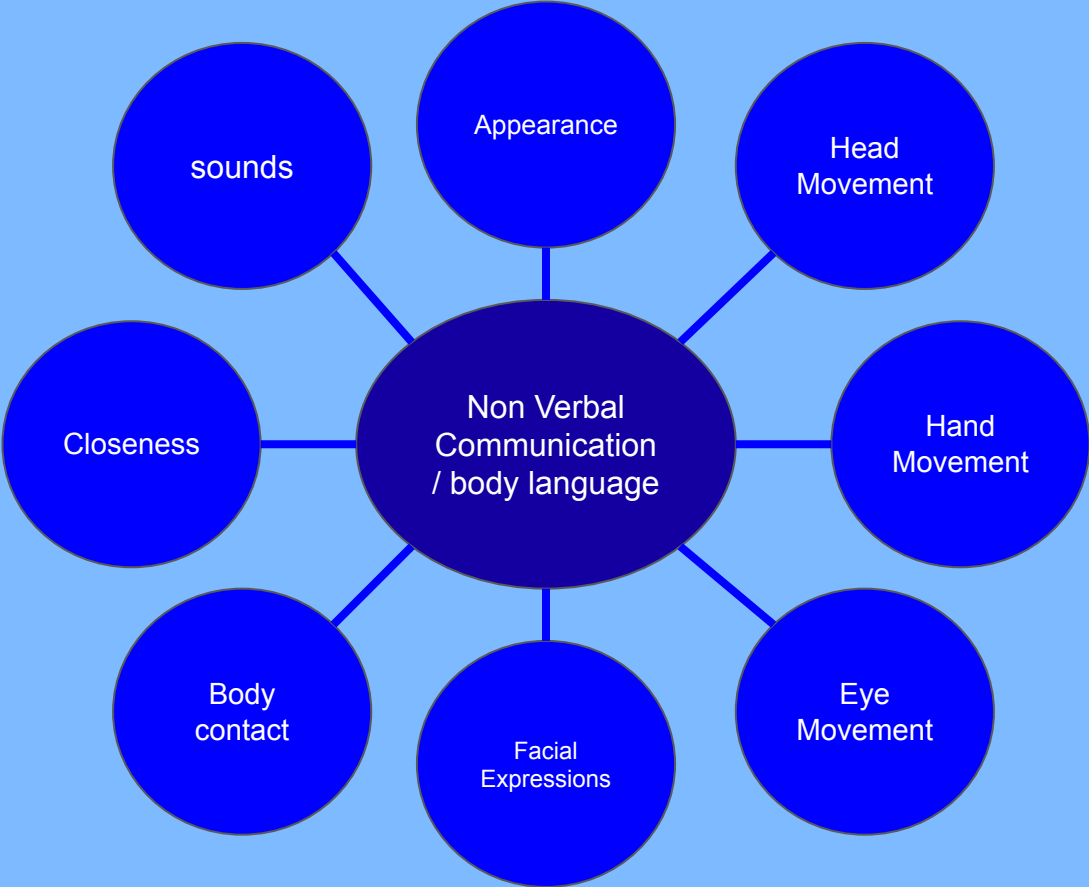

['sɒft 'skɪls]

Character traits and interpersonal skills that support the pursuit of personal and organizational goals.

Source: Indeed

Communication

Teamwork / Collaboration

- The ability to cooperate share ideas and contribute to a collective
- Understanding the dynamics of group interaction
- Being able to compromise
- Share credit
- Appreciate contributions

Problem Solving

- Tackle obstacles creatively and effectively
- Not just about finding a solution

Why Soft Skills?

- Highly sought after by employers
- Enhance professional performance
- Help stand out in a crowd

Evaluating Employability

- Employers recognize the value of candidates who poses soft skills
- Here's why:
 - Effective communication
 - Teamwork and Collaboration

Nurturing Interpersonal Relationships

- Trust and rapport building building: colleagues will want to work alongside you and trust what you have to say
- Persuasive Power: engaging and informative speakers are more likely to persuade others to their point of view

BUILD TRUST

Pathway to Success

- Effective leaders inspire and motivate team members to achieve their goals
- Leadership is not just about guiding and taking charge
 - Delegate effectively and provide feedback

Q & A
